OPTION B : 90-120 minute workshop with interactive exercises, additional case studies, and targeted recommendations

SUMMARY

Do your members or channel partners feel they are on an endless hamster wheel, just trying to keep their business going? They provide an amazing product or service, but despite all their efforts and good intentions, their day-to-day is a constant struggle to find interested people, set themselves apart, and make the sale – all while competing against established industry players and dealing with customers who seem to care about only one thing... PRICE. In this game-changing keynote, participants will walk away with a complete understanding of where they have been going wrong, and they'll know the three instantly-implementable strategies to turn it all around.

STRUCTURE

Attendees will leave this session feeling a renewed excitement for their business – but most important, with a reliable plan for success based on three simple steps:

In this session, they'll learn exactly how to identify who those customers are, how to be seen as the only logical choice, and how to get paid what they're worth.
3. **Sales Systemization.** Sales is seen by most as a skillset you either have or you don't. But in truth, it's a system like any other, one that can be learned and mastered. Participants will walk out of this session knowing that they can create an individualized sales process that brings repeatable, reliable results.

Death of the Elevator Pitch

Say goodbye to awkward and unproductive networking

OPTION A: 45-150 minute keynote or interactive workshop

OPTION B: Half, full, or multi-day training

SUMMARY

Let's face it: Most people would rather get a root canal than go networking. Whether it's a business owner attending a local meetup or an employee flying across the world for their annual corporate conference, it's usually the same story. While they go hoping to find that one relationship that will forever change their life, they spend their time with people they already know, or having shallow conversations that lead to nothing. In this transformational keynote, Matthew will shine a spotlight on why traditional networking feels so uncomfortable, then share his strategic networking framework for authentically mastering any room.

STRUCTURE

Confronting the reasons why people hate networking, Matthew helps attendees acknowledge that traditional networking frameworks, while better than nothing, feel transactional, contrived, and anything but authentic. Matthew will invite attendees to say goodbye to awkward and unproductive networking and embrace a totally new style of building connections that has been proven to skyrocket results for even the shyest, most introverted, or highly technical individuals. It's a networking process that doesn't feel self-promotional at all, making networking authentic and even fun.

- 1. Research and Planning:** Participants will learn that networking doesn't start when they enter the networking room or conference. That old-school approach is a ticket to uncomfortable conversations with the wrong people.
- 2. Speak to the Right People:** Networking isn't about finding prospective employers or customers, but two far more important types of people. Matthew will show attendees how to identify and start a discussion with these people before even walking into the networking room.
- 3. Exactly What to Say:** No more will participants dread being asked, "So, what is it you do?" and give the same old boring answer. For the first time, participants will know exactly what to say to evoke genuine excitement and interest, not uncomfortably stifle it. Target Audience

The Digital Frontier: If you can't articulate your value and uniqueness face-to-face, you have no chance online. Participants will discover that perfecting Matthew's system in face-to-face networking is the catalyst to successful global networking. Participants will walk out energized to master the networking room, so they'll never need to go back to one (unless they want to).

TARGET AUDIENCE

This session has been designed in two formats: One to be presented in front of small business owners looking for a more successful and far less transactional way of networking, and the other to be presented at corporate conferences, where organizers are hoping to see their employees actively network with each other effectively and authentically. It's also the perfect choice for emerging leaders' events, as it provides attendees with the tools and motivation to comfortably find and solidify their place within any organization. Matthew has delivered this presentation to a range of audiences, from multinational conglomerates to diverse groups of business owners.

KEY TAKEAWAYS ★

- Say goodbye to awkward and unproductive networking
- Understand how to identify and engage with the most impactful contacts in advance, reducing networking to a series of easy, comfortable, pre-planned meetings
- Know exactly what to say to instantly evoke interest, set yourself apart, and make a long-lasting impression
- Skyrocket success by implementing your new networking system online

TOPIC AUTHORITY

- Multi-award-winning speaker
- Called "The Real Deal" by Forbes
- Responsible for five multi-million-dollar business success stories
- At the age of 30, Matthew, an introvert himself, made the decision to leave behind a network he'd spent a lifetime awkwardly fostering and travel across the world to Austin, TX, where, outside his very introverted wife, he didn't know a soul. Less than a year later, he was invited to events as one of the most connected people in the city. Today, his network includes founders of billion-dollar businesses, high-ranking government officials, globally recognized influencers, and many senior leaders of Fortune 500 companies
- Author of *The Introvert's Edge to Networking*, an actionable blueprint for working the room, leveraging social media, and developing powerful connections. Published by HarperCollins Leadership and endorsed by Harvard, Princeton, Neil Patel, Marshall Goldsmith, Michael Gerber, the founder of Business Networking International (BNI), and 20+ more

His first day, he received 92 rejections in a row, and knew something had to change. Matthew created, practiced, and perfected his system, and fast became the #1 salesperson at the largest sales and marketing firm in the southern hemisphere – and in charge of training all the sales teams. Rapid Growth in the Face of Uncertainty

Driving prosperity in changing economic times

DELIVERY :

30-60 minute keynote

SUMMARY

Today's executives are confronted with new challenges that threaten their continued growth and survival. With increased competition, disruptive technologies, and tough economic climates, market share is dwindling and discounted acquisition is steadily on the rise. This insightful keynote provides participants with a full understanding of how to stay competitive in a constantly changing landscape. They'll discover how to achieve sustained success in the face of smaller, more agile competition, and they'll learn the three instantly-actionable strategies to immediately drive any corporation back to momentum and growth.

STRUCTURE

With real-world examples from his own past clients and case studies from a diverse range of industries, Matthew explains why changing economic times, new technologies, and ever-growing competition are nothing to fear. For sustained momentum and growth in the face of external factors, businesses need only turn to Matthew's three proven, time-tested principles:

- 1.** Differentiation and Message Unification. It doesn't matter how many new competitors are out there or how flashy their marketing is. The real secret lies in knowing how to truly set yourself apart – at a brand and product/service level – in a way that excites and inspires new consumers to engage with your offerings.
- 2.** Niche Marketing. Speaking to everyone is speaking to no one. (Plus, it's ridiculously expensive.) Participants will discover the bottom-line implications of embracing a niche approach within corporate strategy, leading to a strong culture of intrapreneurship across all departments.
- 3.** Sales Systemization. The game of sales has changed, and corporations that don't change with it will be left in the dust. Today, the key to customer acquisition, growth, and brand loyalty is not bulldog sales tactics and mass media campaigns. Instead, participants will discover marketing strategies that harness technology, psychology, and strategy to engage with their ideal clients and motivate them to buy.

TARGET AUDIENCE

This session is ideal for executives, leadership teams, and senior managers looking for a sales and marketing edge – not a gimmick. Matthew has shared this presentation from Las Vegas to Bangkok, earning rave reviews across industries, including multinational corporations such as Electrolux, and award-winning Oracle partner, Centroid.

KEY TAKEAWAYS ★

- Truly set your brand and product/service apart from the competition
- Put an end to dwindling market share and discounted acquisition
- Discover how to cost-effectively engage new and excited-to-buy prospects
- Introduce a strong culture of intrapreneurship and creativity across your organization
- Uncover the secret to leveraging technology, psychology and strategy to skyrocket customer acquisition, profits, and brand loyalty, while drastically reducing sales cycles and marketing spend

Channeling Your Superpower

The life-defining power of thought

DELIVERY : 30-60 minute keynote

SUMMARY

Some people come from nothing and overcome tremendous adversity to achieve success. Others come from backgrounds of education and privilege, yet achieve nothing. What is it that differentiates people who succeed from those who do not? Is it nature, is it nurture, or is it something that can be mastered and controlled? In this inspirational tell-all presentation, Matthew uncovers the secrets behind his tremendous achievement and that of his clients, showing how participants, with a few changes in behavior and mindset, can create an unstoppable force of focus, motivation, and no-limit thinking.

STRUCTURE

Matthew will share the practical strategies he and thousands of his clients use every day to obtain skyrocketing productivity, innovation, and focus in their careers, businesses, and lives. Participants will walk out with a genuine, lasting belief that they too can achieve what others consider “impossible” – and they’ll know the exact steps to follow to go out and make it happen.

- 1. We are what we believe.** Henry Ford said, “If you think you can or think you can’t...you’re right.” Too often we assume something can’t be done – or at least, not by us. Participants will discover the power of “what if” thinking, and how this simple change can lead to positive ripple effects across their entire lives.
- 2. Controlling the critic within.** Thousands of years ago, the inner critic was useful in warning us of potential dangers. Today, it simply traps us in lives of mediocrity. Science suggests that we have between 12,000-60,000 thoughts a day; participants will discover how to control this barrage of thoughts and channel them towards accomplishment, not paralysis.
- 3. Harness your superpower.** Discover the key to unleashing an avalanche of energy and focus, and learn precisely how to channel it to drive achievement, momentum, and growth.

TARGET AUDIENCE

This session is ideal for corporate retreats and conferences where the goal is to increase productivity and innovation through fostering a more purposeful, congruent, and excited team. Small business owner associations and entrepreneurship summit participants also benefit tremendously from this presentation, walking out with a new sense of possibility and a tool kit for success. Ultimately, this session is for anyone looking for the key strategies and mindset shifts to create a personal and professional life of fulfillment and success.

KEY TAKEAWAYS ★

- Learn how to foster a mindset of “what if” thinking
- Discover the take-action tactics that control your inner critic once and for all
- Finally discover what you want and, more importantly, why you want it
- Muster the fire in your belly to go out and take the world head-on
- Discover your niche market of motivated, excited-to-buy customers
- Achieve a new outlook on sales

The business landscape has changed, and organizations and their employees must learn to adapt in order to survive and thrive. The secret to dramatically increased productivity, profitability, and sales acquisition requires leaving behind your outdated ideas of dog-eat-dog competition and turning instead to the high-yield powers of collaboration.
